

ScopicLine™

Disposable laparoscopic instruments A State of the art new generation of Hemostats made of plastic

Another innovative line of unique, single use, patented instruments from **Kencap Ltd.** *ScopicLine™* offers a series of clamps with various shapes and heads, designed to be used for: **Gynecology, Abdominal Surgery, General floor procedures, Emergency rooms, Doctor's office and Clinics.**

The *ScopicLine™* is used whenever a long and narrow instrument is needed for a stronger grip allowing an open clear view to see the procedures or to fit into small places.

ScopicLine™ can come in different sizes and different heads. The heads and length can be designed to fit your customer needs. *ScopicLine™* can be sterilized by any type of sterilization, Gas (ETO), Autoclaving or Gamma Radiation. *ScopicLine™* is excellent for kit packers, reduce cost and help fight cross-infection.

Advantages:

- State-of-the art design.
- Lock for holding in position.
- Large finger loops.
- No metal parts, Latex free.
- One dimension line for a open clear view.
- Disposable for one time use.
- Economically priced.
- Can be sterilized by all methods.
- Helps fight cross-infection.
- Made of medical approved material.

Overall length 300mm (12") with a 200mm (8") working arm. One unit weighs :25gr(0.055pound)

ANATOMIC KELLY HEMOSTAT STRAIGHT

- Cat. No. 6343** *ScopicLine™* clamp straight not sterile bulk packed.
Cat. No. 6340 *ScopicLine™* clamp straight without locking mechanism.
Cat. No. 6345 *ScopicLine™* clamp straight sterile.

ANATOMIC KELLY HEMOSTAT CURVED

- Cat. No. 6443** *ScopicLine™* clamp curved not sterile bulk packed.
Cat. No. 6440 *ScopicLine™* clamp curved without locking mechanism.
Cat. No. 6445 *ScopicLine™* clamp curved sterile.

SPONGE HOLDER HEMOSTAT

- Cat. No. 6543** *ScopicLine™* sponge clamp not sterile bulk packed.
Cat. No. 6540 *ScopicLine™* sponge clamp without locking mechanism.
Cat. No. 6545 *ScopicLine™* sponge clamp sterile.

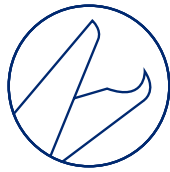

PALMER TENACULUM CLASPING HEMOSTAT

- Cat. No. 6243** *ScopicLine™* Tenaculum clamp not sterile bulk packed.
Cat. No. 6240 *ScopicLine™* Tenaculum clamp without locking mechanism.
Cat. No. 6245 *ScopicLine™* Tenaculum clamp sterile.
